Subject: Expert Review of Ophthalmology - Decision on Manuscript ID ERL-2017-0023.R1

Date: Tuesday, 17 October 2017 at 16:34:26 British Summer Time

From: Expert Review of Ophthalmology

To: Anderson, Roger

17-Oct-2017

Dear Professor Anderson:

Ref: Improving ophthalmic diagnosis in the clinic using the Moorfields Acuity Chart.

Our referees have now considered your paper and have recommended publication in Expert Review of Ophthalmology. We are pleased to accept your paper in its current form which will now be forwarded to the publisher for copy editing and typesetting. The publisher will contact you, as part of the acceptance process, for confirmation on any colour figure requirements and for invoicing.

You will receive proofs for checking, and instructions for transfer of copyright in due course.

The publisher also requests that proofs are checked through the publisher's tracking system and returned within 48 hours of receipt.

Please note that in order to maximize exposure to your article, we now publish the accepted, non-typeset version of all accepted manuscripts within a few days after acceptance. Therefore your revised manuscript in the form that you have submitted will appear online. Once the manuscript has been through our production process (including typesetting), the finalized, typeset version of the article will replace the pre-typeset version online. Please let us know as soon as possible if you do not want your paper to appear online ahead of typesetting.

IMPORTANT: Since we cannot publish any manuscript unless a copyright form has been received, please fill out and submit the e-copyright form which will be sent to you in an email link once your paper has been loaded into our production system. Please ensure that this form is submitted within 24 hours so that the publication of your paper will meet the scheduled publication time frame.

Thank you for your contribution to Expert Review of Ophthalmology and we look forward to receiving further submissions from you.

Sincerely,

Samantha Wilkinson
